KEY ACCOMPLISHMENTS

- On August 21, 2008, the FERC issued an Order Commencing Paper Hearing regarding the allocation of RSG charges to Market Participants. Briefs were filed by Complainants on September 22, 2008, with Reply Briefs filed October 10, 2008.
- On October 7, 2008, the Midwest ISO Market Subcommittee passed motions recommending that the Midwest ISO make a 205 filing using the RSG Redesign Proposal, with additional approved changes.
- On November 10, 2008, FERC issued an Order that required MISO to remove language restricting Real Time RSG allocation to Market Participants that “actually withdraw energy.” The Midwest ISO is currently in the process of resettling the market.
- On February 23, 2009, MISO filed a Section 205 filing outlining its RSG Re-Design Proposal and associated tariff language. Currently awaiting a FERC decision.
- PJM Members Committee endorsed package of Balancing Operating Reserves credit and allocation changes at its November, 2007 meeting. The package of changes was implemented December 1, 2008.

UPCOMING ACTIVITIES

- The original scope of this initiative has been superseded by actions taken by the FERC. Stakeholders may revisit it at some future point in time.

ISSUES & CONCERNS

- None.
