

# **Market Flow Threshold Field Test**

**Joint Stakeholder Meeting  
June 6, 2008**

## Reason For Change In Threshold

- Market flows are assigned an amount of relief by the IDC based on level of TLR, amount of curtailment requested and the priority/sub-priority of tags relative to the market flows.
- On some flowgates, Midwest ISO and PJM are unable to consistently accomplish their relief where they have very small impacts.
- On some flowgates, the markets will either have no generation they can move or will require a large amount of redispatch for a small amount of relief.

# Market Flow Threshold Field Test - Review

- **Original Conditions placed on field test:**
  - 12 month test to be completed by December 31, 2008
  - Can start before June 1, 2007 or after September 1, 2007
  - Must start no later than December 31, 2007
  - At least one market must be ready to start
  - NERC TLR Standard Drafting Team will monitor progress and make periodic reports to the NERC Standards Committee
- **New Conditions placed on the field test per the NERC Standards Committee**
  - Field test extended to October 31, 2008
  - Threshold raised to 5% beginning June 1, 2008 (Final recommendation to be based on the results of the field test—5% is not presumed)

# Summary Results - Previous Report

- IDC threshold reports analyzed for July 2007 through December 2007.
- The table below shows the number of TLRs where an entity was unable to provide the IDC requested market flow relief (one or more 5-min interval failures).

	<b>MISO</b>	<b>PJM</b>	<b>SPP</b>	<b>Total TLR 3+ Reports</b>
<b>July &amp; Aug</b>	<b>31</b>	<b>7</b>	<b>1</b>	<b>74</b>
<b>Sept &amp; Oct</b>	<b>20</b>	<b>17</b>	<b>9</b>	<b>82</b>
<b>Nov &amp; Dec</b>	<b>5</b>	<b>21</b>	<b>1</b>	<b>64</b>
<b>Total</b>	<b>56</b>	<b>45</b>	<b>11</b>	<b>220</b>

# Activities Through End of April 2008

- **Queried the data to see if any trends exist**
  - **Time Delay (t=0, t=15, t=30)**
  - **Time of Day (Ramp Up, Ramp Down, On Peak, Off Peak)**
  - **Flowgate Type (External, Internal)**
  - **Magnitude of Relief Request in MW (0-10, 10-20, 20-50, 50-100, >100)**
- **Request to NERC Standards Committee**
  - **Use 5% as the threshold as of June 1, 2008**
  - **Extend the field test to October 31, 2008**

# Headlines

**CAUTION:** Data analyzed to date are providing some results that do not make sense (This is a work in progress!)

- **Overall performance: ~30% (based on a very restrictive definition of success)**
- **Factors which influence success**
  - **Magnitude of relief request**
  - **Time delay from the onset of the TLR**
- **Factors which are inconclusive**
  - **Threshold percent**
  - **Time of day**

# Headlines (cont.)

- **Internal flowgates**
  - **Does not appear to be worthwhile to analyze these events**
  - **Other processes are at work to handle these events (e.g., Market to Market Redispatch (M2M))**
  - **IDC CO-226 in place to provide data on M2M**

# Review of the Data

# **Total TLR Events (External ) 6/1/2007 thru 4/28/2008 (t=0)**

	<b>MISO</b>	<b>PJM</b>	<b>SPP</b>	<b>Total</b>
<b>Events at 0%</b>	<b>14/86</b> (16%)	<b>1/11</b> (9%)	<b>143/420</b> (34%)	<b>158/517</b> (31%)
<b>Events at 3%</b>	<b>2/22</b> (9%)	<b>44/234</b> (19%)	<b>38/131</b> (29%)	<b>84/387</b> (22%)
<b>Events at 5%</b>	<b>0</b>	<b>0</b>	<b>0</b>	<b>0</b>

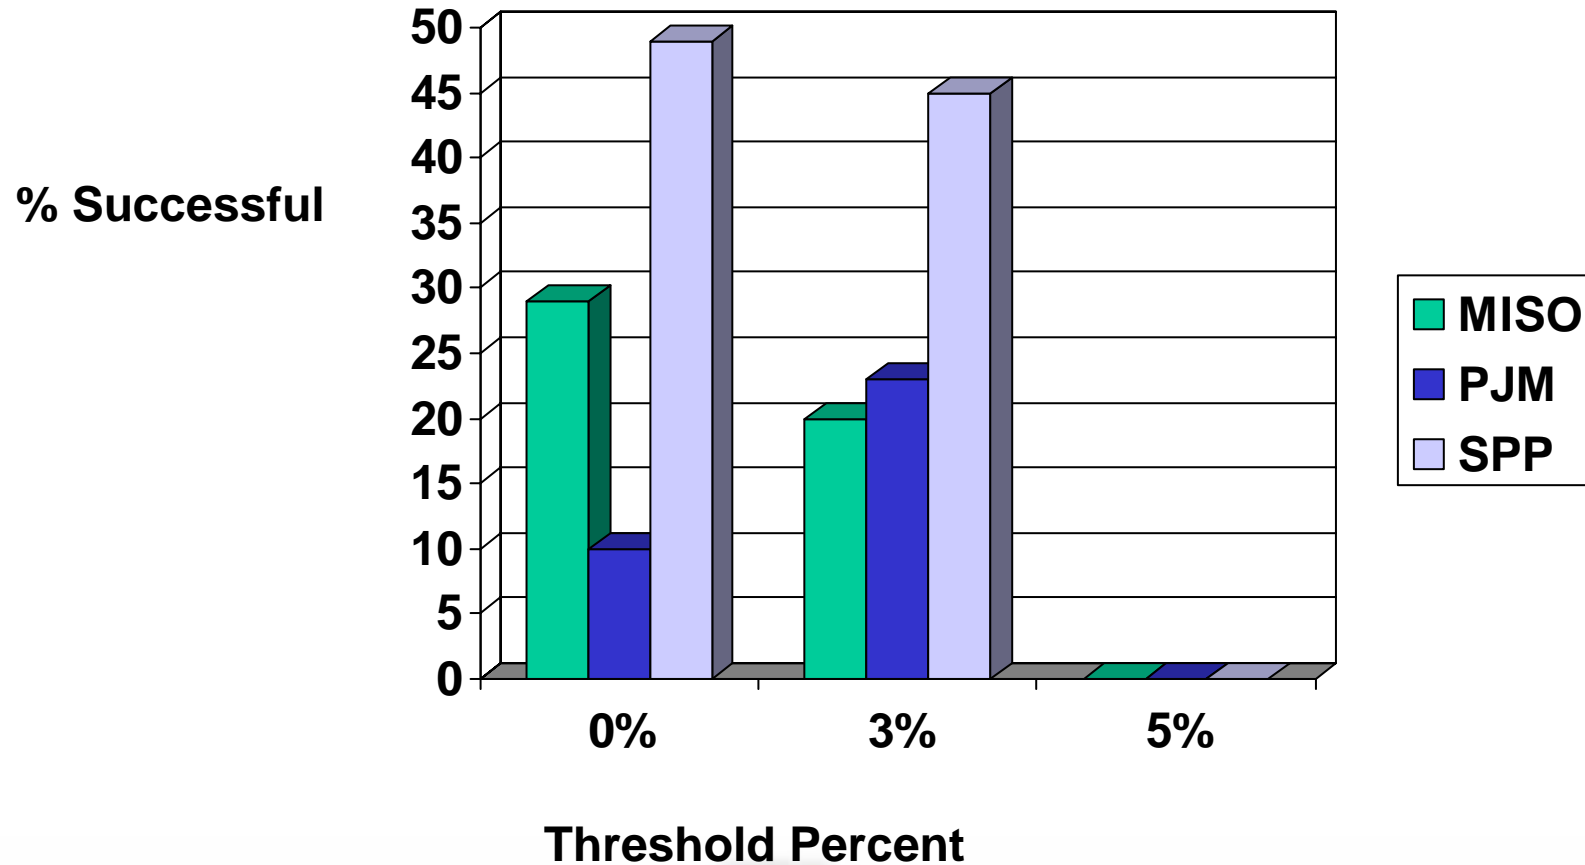

**Cell format: # of successes / total events**  
**(% successful)**

# **Total TLR Events (External ) 6/1/2007 thru 4/28/2008 (t=30)**

	<b>MISO</b>	<b>PJM</b>	<b>SPP</b>	<b>Total</b>
<b>Events at 0%</b>	<b>24/83</b> (29%)	<b>1/10</b> (10%)	<b>198/401</b> (49%)	<b>223/494</b> (45%)
<b>Events at 3%</b>	<b>4/20</b> (20%)	<b>53/229</b> (23%)	<b>54/120</b> (45%)	<b>111/369</b> (30%)
<b>Events at 5%</b>	<b>0</b>	<b>0</b>	<b>0</b>	<b>0</b>

# Relief Magnitude at t=30

% Successful

# Next Steps

# Next Steps

- **Analyze more data – More Midwest ISO events at 3%; Events at 5%.**
- **Specific flowgate analysis (successes/total events)**
  - **Midwest ISO: 2375 Wylie Ridge (0/19)  
9159 ONT-ITC (11/53)**
  - **PJM: 3006 Eau Claire-Arpin (35/169)  
7102 QFW (2/35)**
  - **SPP: 3167 St. Francois-Lutesville (20/102)  
6007 Gentlemen3-RedWillow (119/253)  
14484 WhiteBluff-KEO (27/98)**
- **Review criteria for “success” – when is close enough?**
- **Investigate other contributing factors**
  - **Marginal zones**
  - **Unconstrained market flow calculation**
